	le Sollar
	Chapter 5 - Practice Set
1	Write a program to print the following pattern
	* * * *
	* * *
	* *
	*
2	Write a program to sum first n even numbers using while loop.
-	using while loop.
3	Write a program to print multiplication table of a given number n
1	a given number n.
4	Write a program to print multiplication table of 10 in severse order.
"	10 in reverse order.
5	Write a program to find factorial of a given
	Write a program to find factorial of a given number using for bops.
6	Repeat 5 using while box
7	Repeat 1 using for /while loop
0	It at can be done using one tube of last
8	What can be done using one type of loop can also be done using the other two types of loops - True or False. > True
	of looks True or False True
	1000
q	Write a program to salculate the sum of the
11	Write a program to calculate the sum of the numbers occurring in the multiplication table of
	8.

	2001
10	A do while loop is executed:
"	Al lad
	17 At least once
	THE TWO CONCE
	3 > At most once
	***
11	Repeat 2 using for loop.
-	
	3
	to a later of the second of th
	2 that a program to sun first in even number
	doal elister praise
-10	elect notariditum tring of margond or still so
	and a sign primark w.
	The street character is:
40	ables weiteralties to I be to a collision to the
	able a program to print multiplication talks
	tool in seminal order
	A A A A A A A A A A A A A A A A A A A
ion	5 Write a program to find fortaxial of a
	specification and amount anterior
1	
	1 Report & using while box
	3 Report 1 using for furbile loop
	good states for fixed to food &
A	of to solut and make usage at the of the
	The state of the s
	of whools in True or Folse
- 1875	Write a brown to calculate the sum of
	The state of the s
